

Outsourced security management for renewable energy and infrastructure

Capability statement · Projects in complex and higher-risk environments

Martello gives developers, IPPs and contractors an experienced security department without the cost of building one. We support projects from early development and construction through to long-term operation, across Africa, the Middle East, South Asia and Latin America, for developers, EPC contractors, utilities and investors who need security that stands up to lender due diligence.

Our method: Understand > Assess > Treat > Implement > Monitor, in line with ISO 31000, so measures stay proportionate to the risk.

Security across the project lifecycle

Development	Construction	Operations

Throughout: travel risk management and journey planning, tracking and geofencing with 24/7 alert response, local security provider coordination, and emergency response.

Why clients use us

- We know renewables.** Six years as the outsourced security function for an international renewable energy IPP, across solar, battery storage and distributed energy.
- We work where others pull back.** Live support in northern Cameroon, Chad, DRC, the Lake Chad basin and Sindh.
- Lender-ready.** Plans, tenders and contractor standards aligned with IFC Performance Standards and the Voluntary Principles on Security and Human Rights.
- Proportionate advice.** Security that keeps people safe and lets the project run, not measures that stop work.
- A trusted local network.** Vetted in-country security providers and analysts, managed and quality-checked by Martello.
- Flexible commercial models.** Monthly retainer, fixed-price assignments or day rate.

“Being a multinational company seeking opportunities in growing markets, it is essential to have a competent and reliable outsourced security consultancy organisation. Martello Security makes use of a broad network of security specialists and supports our global business with services across risk management, security and emergency response, ranging from documentation development to bespoke travel arrangements.”

Vice President, Scatec ASA

Track record

6 years supporting one international IPP across its portfolio	12+ countries supported in 2025 to 2026	24/7 on-call response for travellers and sites
---	---	--

Countries include Egypt, Cameroon, Chad, DRC, Pakistan, Tunisia, Liberia, Sierra Leone, Zambia, São Tomé and Colombia.
